

Irvine Scientific's Vitrification System

A Hands-On Workshop for Achieving Success Using an Ultra-Rapid Cryopreservation Method

This 9 hour workshop will focus on Irvine Scientific's state-of-the-art Vitrification System for oocytes and embryos. This DMSO based system has the most published clinical data and proven results worldwide.

Attendees will receive hands-on training for successful use of the Vit Kit®-Freeze and Vit Kit®-Thaw. There will be a special guest speaker, Nesrine Hanafi, from Madina Fertiliy Center presenting on her experience with Vitrification and assisting with your hands-on training.

This Workshop is recommended for embryologists who are looking for an improved, safe, and reliable method for freezing embryos and/or oocytes.

Location and Times:

November 3rd, 2009 – Cairo, Egypt
Two Workshops: 8-12 p.m & 1-5 p.m
Fairmont Towers Hotel

Space is limited to 20 attendees per workshop; please reserve your spot as soon as possible.

Cost: 200.00 USD per attendee
